## History Behind Grace Family Ministries

From our earliest days together, the Lord God gave Lori & I hearts for Biblical marriage & family life along with a passion for the generational impact of our lives.

Having served in pastoral ministry of churches from Denver, Dayton, D.C., & the Dells to the executive leadership of an intl. missions organization for the better part of 5 years, our eyes have been opened to the state of church & family life across this country & on the foreign mission field.

Family life is central to advancing the cause of Christ to the ends of the earth. Ministry literally begins on the grass roots level at home.

Where will the next generation of pastors, missionaries, & Christian leaders come from if churches & families are not strong?

God's Spirit has ignited a zeal in our hearts to serve the church & family for such a time as this. Please pray for Grace Family Ministries to be used of God to the praise of His glory in Christ Jesus.

Consider  
This

*"More than missionaries, we need a reformation of the whole Church of Christ in America."*

*A. W. Tozer (1897-1963)*

"The Church of Christ today, the born-again evangelical Church, is in Babylonian captivity. We are among people that speak another language. We are learning their ways, & we are giving up to their morass & their moral codes & their way of living. Because of the disgraceful fornication of the Church with the world, we are in desperate need of restoration.

Remember, until we are restored & the Church is restored, even our missionary endeavors won't be successful, because all we'll be doing will be transplanting a scrub Christianity on foreign soil. That's all.

Remember, missionaries, you can never produce anything better than you are yourself.

The Bible says, 'Let it bring forth after its kind.' Send a missionary over there with a cheap concept of God & his head filled with jingly choruses, & that's the kind of Christianity he will produce over there. All he will be doing is transplanting a degenerate Christianity on a foreign shore.

More than missionaries, we need a reformation of the whole Church of Christ in America. When that comes, then we will get more missionaries & their quality will be higher & the result will be that they will produce a higher type of Christian."
